

September 28, 2016

Dear Highland Park Families,

You are cordially invited to Highland Park's Family Literacy Night, an evening where our teachers will share ideas with you about how you can help your children become successful readers.

This is an evening meant for both parents/guardians and children. Teachers will work with you and your child together to help you learn about our goals for reading achievement and some of the ways you might help your child at home. All who attend the evening will take home books to enjoy and practice with at home.

The program will be held on October 20 from 6:00 to 7:30; please save the date. The evening will start with pizza, so there is no need to make dinner that night! Childcare will be available for preschool age children, and transportation by bus will be offered for those families who need it. We will arrange both in advance when we know the need.

We would love to see you as we work together to assure the success of our children. More information will come shortly, so be on the lookout for a Family Literacy Night signup sheet coming home soon.

See you then!

Sincerely,

Dr. Ali
